

ON EXCESS ENTROPIES FOR STATIONARY RANDOM FIELDS

Wojciech BuŁatek
Brunon Kamiński

Abstract: We study the behaviour of the excess entropies of stationary random fields defined by Crutchfield and Feldman in two classes of random fields: Conze fields and product fields.

2000 AMS Mathematics Subject Classification: Primary: 94A17; Secondary: 54C70.

Keywords and phrases: Entropy, excess entropy, random field.
