

ON ELEMENTARY CHARACTERIZATIONS OF THE α -MODIFIED
POISSON DISTRIBUTION

Katarzyna Steliga
Dominik Szynal

Abstract: In this article we give a characterization of α -modified Poisson distributions extending Chatterji's result. Moreover, we consider the α -modified Poisson distributions of type j which are known as Delaporte distributions.

2000 AMS Mathematics Subject Classification: Primary: 60E05; Secondary: 62E10.

Keywords and phrases: Poisson distribution, α -modified Poisson distribution, α -modified binomial distribution, Delaporte distribution, Riordan α symbol.
