AN INEQUALITY FOR NORMS OF POISSON WICK PRODUCTS

Alberto Lanconelli
Aurel I. Stan

Abstract: An inequality for the norms of Poisson Wick products, involving second quantization operators, will be presented.

2000 AMS Mathematics Subject Classification: Primary: 60H99; Secondary: 60H40, 05E35.

Keywords and phrases: Poisson probability measure, Charlier polynomials, Wick product, exponential functions, second quantization operator, Jensen's inequality.
